

Polycystic Ovarian Syndrome (PCOS)

A Primary Care Grand Rounds

Live CME Webinar

Wednesday, March 12, 2024
6:30 - 7:30 PM

Why is this important?

Chronic pain affects an estimated 50 million adults in the United States, with 19.6 million experiencing high-impact chronic pain that significantly limits daily life or work activities. Acute pain, though often temporary, poses a risk of progressing to chronic pain if not addressed appropriately. This activity will explore the integration of multidisciplinary care approaches, emphasizing collaboration between primary care providers and pain clinics.

Educational Credits

Endeavor Edward-Elmhurst Hospitals are accredited by the Illinois State Medical Society (ISMS) to provide Continuing Medical Education credit to physicians. Edward-Elmhurst Hospitals designates this activity for a maximum of 1.0 *AMA PRA Category 1™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity enables the participant to earn up to 1.0 ABIM MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) Program.

Presented by:

Marina Dubovis, DO
Obstetrics & Gynecology

Objectives

At the conclusion of this activity, participants will be able to:

- Discuss the role of primary care physicians in the diagnosis and management of PCOS.
- Explore emerging research into novel therapies for PCOS.
- Evaluate the current treatment guidelines for PCOS.
- Analyze the implications of PCOS on psychosocial, metabolic, and reproductive health.
- Critique the current understanding of PCOS pathophysiology and diagnostic criteria.
