

TRAUMA JOURNAL

CME SERIES

At the conclusion of this online activity, participants will be able to:

- Explain the underlying principles for diagnostic examinations and therapeutic techniques described for trauma patients.
- Analyze and compare guidelines and recommendations for a variety of normal and abnormal trauma conditions.
- Distinguish the evolving evidence and approaches to diagnosis and treat trauma patients and appropriately apply to practice.
- Implement best practices in patient safety, quality assurance, and healthcare delivery in trauma patient evaluation and management.

**Earn your Trauma
Specific CME Credit!**
