

Endeavor Health

Epic Support Training

The Epic 2-hour Rev-Up and 5-hour Accelerate Programs assesses the providers' current workflows, reviews their personalized productivity data, and creates a customized efficiency plan helping them to gain confidence, efficacy, and expertise within Epic. These individualized sessions are also designed to decrease time and physician fatigue related to EMR usage.

In as little as 30 minutes or up to 2 hours learn how to spend less time in Epic

In nearly 5 hours learn how to speed up your time spent in Epic

At the conclusion of this activity, participants should be able to:

- Assess and review current workflow and implement recommendations to ease burden of EMR documentation and usage.
- Demonstrate by hands-on validation how to use the EEH EMR and voice recognition software to care for patients.
- Discuss how to create clinical decision support features to improve patient safety and positive health outcomes in clinical practice.
- Develop strategies to increase productivity and decrease apprehension using EMR.

At the conclusion of this activity, participants should be able to:

- Assess and review current workflow and implement recommendations to ease burden of EMR documentation and usage.
