Caring for the Veteran Patient

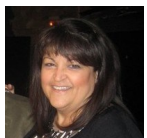

February 16, 2019

Daniel Grodinsky, MD

Dr. Grodinsky is a general internist who is an Associate Professor in the Department of Medicine at the Loyola University Medical Center and Edward Hines VA Hospital in Maywood, Illinois. He received his BS in Psychology from the University of Illinois and his medical degree from Northwestern University. He completed his medical residency at the Indiana University Medical Center. He has been on staff at the Edward Hines VA since 1992 and was the Environmental Health Clinician there from 1997 to 2015. He is a dedicated clinician-educator directly involved in the education of Loyola Stritch School of Medicine students and residents in the Loyola Internal Medicine program, with extensive teaching experience in classroom, inpatient, and outpatient settings.

Kathy Jarman, Kindred Hospice Chaplain

Kathy Jarman has certifications in Chaplaincy/grief counseling from Association for Death Education and Counseling, Art Therapy from Northwestern University with over 10 years experience in hospice providing spiritual care to patients and families at end of life and grief counseling to families in the community. She has provided the expertise and leadership to hospice organizations to comply with the national We Honor Veterans program requirements and has launched two successful organizations to create new initiatives in Veteran care: Chicagoland We Honor Veterans Collaborative and Caring for Aging Veterans Council.

Thomas Nutter, MD

Dr. Thomas Nutter is a licensed psychiatric physician with Edward Hines Jr. VA hospital. He obtained his undergraduate degree in Chemistry/Biology from Valparaiso University and his medical degree from University of Illinois College of Medicine. He completed his residency in Psychiatry at McGaw Medical Center/Northwestern University, Department of Psychiatry. Dr. Nutter is also an Assistant Professor for the Department of Psychiatry and Behavioral Neurosciences at Loyola University, Stritch School of Medicine. He's had numerous publications and research experience as well as honors and awards throughout his career.

 **Illinois State Medical Society** *Edward-Elmhurst Health is accredited by the Illinois State Medical Society (ISMS) to provide Continuing Medical Education to physicians. Edward-Elmhurst Health designates this live activity for a maximum of 3.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.*

The Veterans Affairs (VA) health care system aims to provide high-quality medical care to veterans in the USA, but the quality of VA care has recently drawn the concern of government officials. The Senate voted Wednesday to give veterans more freedom to see doctors outside of the VA's health care system, fulfilling a promise of President Donald Trump, who has said that veterans should be able to access private care whenever they're dissatisfied with the VA's options. These and other major changes are driving a new patient population for physicians. It will be imperative for physicians to know the differences in care that are essential for veterans that are different from the general population. This live activity is designed to address issues within the health system in order to better assist VA patients with resources as well as converse with veterans in way that allows providers to identify issues, tackle challenges, and attend to the special needs of veteran patient.
